

Dr Speiser's Australian Breath Clinic RECOGNISED FOR OUTSTANDING ENTERPRISE AT THE AUSTRALIAN BUSINESS AWARDS 2006 February 2007

The Dr Speiser's Australian Breath Clinic scooped the prize for Best Enterprise in the Micro - Business category at the inaugural Australian Business Awards 2006. The Australian Business Awards attracted in excess of 500 entries nationally.

Awarded for their initiative and willingness to undertake bold new ventures in the area of oral health care, the Dr Speiser's Australian Breath Clinic was also recognised for their commercial growth and success, viewed as outstanding given the size of their business.

Based in Sydney, The Dr Speiser's Australian Breath Clinic was founded by dental associate and Australia's foremost bad breath expert, Dr Geoffrey Speiser in early 2005. After 25 years as a practicing dentist Dr Speiser had noted a marked increase in the number of clients suffering from the embarrassing but common problem of bad breath. What became apparent was that sufferers were struggling to access the provision of expert advice, and the idea for the Dr Speiser's Australian Breath Clinic was born.

Dr Geoffrey Speiser has since treated over 5,000 patients at his Edgecliff practice (and via the clinic's website). The first of its kind in Australia, the Dr Speiser's Australian Breath Clinic is also the exclusive Australian distributor of KForce, a probiotic treatment effective against the bacteria that cause bad breath.
